A TRUSTED BOAT BUILDER SINCE 1948.

Sylvan Marine traces its history back to the late 1940s, when it was founded near Sylvan Lake in Wolcottville, Indiana. Since 1970, the Sylvan brand has been part of the Smoker Craft Inc. Family of Products and continues to be known for high-quality, innovative pontoons. You can count on Sylvan for the best pontoon values for every budget — backed by the very best service and warranties. After all, it's our family's tradition.

THRILL RIDE. EXCLUSIVELY FROM SYLVAN.

Game-changing Sylvan performance rides on RPT Revolutionary Planing Technology tubes. The V shape allows the pontoon to lift and plane across the water with sportboat-style speed and handling. In fact, you get increased top speed per horsepower and dramatically improved fuel efficiency — which is perfect for great days of tow sports and cruising.

And now, you can upgrade to our all-new PR25 Performance package for an even better experience. Developed for use with a removable ski pylon, this package features an extended center transom and 60-gallon fuel tank to provide increased fuel capacity for a larger or XL shaft engine.

Whichever package you choose, keep your investment looking showroom clean with the new painted tube option. A combination of zinc chromate primer and urethane paint chemically etches into the aluminum to form a corrosion-resistant surface.

Thanks to RPT and PR25, a Sylvan pontoon isn't just the best of both worlds of spaciousness and performance. It's a whole new level of wow.

LEADING THE WAY WITH TECHNOLOGY, COMFORT & CHOICE.

Every Sylvan is built on our three pillars of a better pontoon experience: advanced technology, comfort that's designed to exceed your expectations, and more choices to help you customize your pontoon and make it your own. Technology, comfort and choice — our keys to great days on the water.

RPT
2.0

TECHNOLOGY

As the pontoon innovation leader, Sylvan incorporates sophisticated, real-world technologies into a superior pontoon design, outstanding features and quality-focused manufacturing processes.

COMFORT

Everything about a Sylvan pontoon is designed for maximum comfort and convenience. To begin with, our innovative floorplans are spacious, flexible and perfect for entertaining family and friends. And you won't find ordinary boat furniture on a Sylvan – our plush, overstuffed loungers create a luxurious living room on the water.

CHOICE

Virtually every aspect of a Sylvan pontoon can be chosen to create a boat just for you. From our wide range of innovative floorplans, to great options and packages, to flooring and colors – it's all up to you.

Murphy Touch Screen | Select Sylvan pontoon models are available with a Murphy Touch Screen control system, putting a wide range of features at your fingertips.

- Displays all gauges and engine functions and air/water temperatures
- GPS with chart plotter and compass heading
- Stereo remote with Bluetooth; 3 video inputs
- Controls for all exterior/interior accent lights
- If applicable, controls for freshwater pump, bilge pump, refrigerator and power bimini top

LED Lighting | Your choice of premium details include LED lighting and designer underdeck lighting

Tubes | Choose your level of pontoon performance with great pontoon tube configurations, including:

- RPT .100 gauge "V" shaped tubes
- Standard .080 Round Tubes
- Standard tubes with lifting strakes
- PTS with 2 standard tubes + a shorter center tube
- PR25 Tube

Furniture | Sylvan furniture uses only the finest quality, marine-grade vinyl with a stain resistant topcoat. Choose the floorplan with your favorite combination of lounge seating, helm chairs, sundeck and oversized rear loungers.

Floorplans | Sylvan gives you more spacious floorplan configurations to fit your lifestyle. Select series offer versatile rear lounge models, stylish port seating models with two high-back helm chairs, and bar models that are ideal for entertaining.

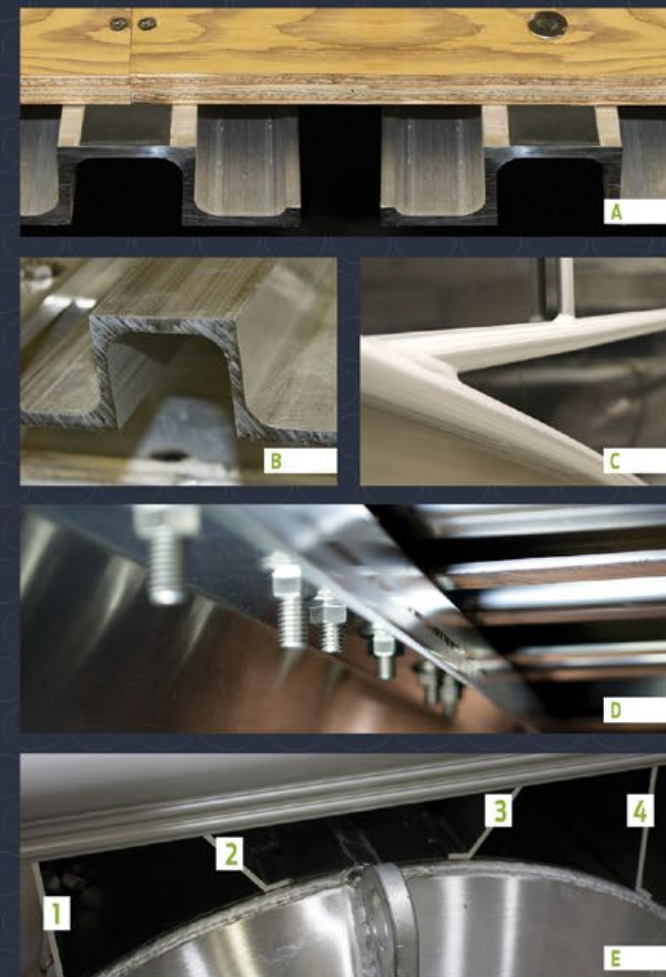

Flooring | Sylvan pontoons offer a wide range of floor and carpet selections, including woven vinyl and vinyl teak options.

Colors | Sylvan gives you the freedom to choose your combination of colors for the panels, accents and bimini top.

Painted Tubes | The S Series gives you the choice of standard or painted tubes, which combine zinc chromate primer and urethane paint to chemically etch into the aluminum, forming a corrosion-resistant surface.

*See pages 30-31 for all of your color and flooring options.

A. Constructed for Endurance | 3/4", 7-ply pressure treated plywood through-bolted and screwed to the hat channels to create the strongest seams in the industry.

B. Hat-Channel Construction | It all begins with .250 (heavy) and .125 (standard) gauge aluminum hat channels that are 6" wide and secured with 8 bolts spanning across our 6" wide deck risers. This creates the widest base in the industry and gives our pontoons greater stability without adding unnecessary weight. Combine that with a .190 gauge aluminum transom that's through-bolted with up to 20 bolts and footed deck risers that prevent tube fatigue, and you see why Sylvan backs its industry-leading construction with a Limited Lifetime Warranty on every product.

C. Fence & Railing | Features foam backing to prevent rattling and fully welded and anodized railing to add strength. Anodized welds are never painted. It's all backed by a 6-year warranty.

D. Thru-Bolted Transom | Made of up to .190 gauge aluminum and supported with up to 20 stainless bolts to handle today's higher horsepower engines.

E. 4-PT Deck to Hull Fusion | Sylvan deck brackets have 4 points of fusion for an extended area of contact with the tube. In addition to providing increased strength and support, this reduces frame twist and racking in rough water and guards against tube fatigue.

A large, modern pontoon boat is shown from an elevated perspective on a calm lake. The boat is filled with four people: a man in a bright yellow jacket at the helm, a woman in a dark blue jacket, a woman in a pink top and black jacket, and a woman in a blue jacket. The boat has a black canopy with 'SYLVAN' written on it and a Yamaha outboard motor at the stern. The water is covered with lily pads, and the background features a dense forest with trees in various shades of green, yellow, and red, suggesting an autumn setting. The boat's reflection is visible in the dark water.
