Canoes

For backwater country, the Sylvan 1993 canoes are available with both double-end and square-stern styles. The safety construction on every model assures you of the dependability that is the hallmark of the Sylvan reputation. Double-end models include 15' and 17' canoes. The square-stern model is 16'.

Sylvan Limited Warranty

The best boats deserve the best warranty

Sylvan warrants each new fiberglass hull for a period of three (3) years, each new aluminum welded hull for a period of two (2) years, and each new riveted aluminum hull for a period of ten (10) years, from the date of purchase by the original purchaser (based on years of use, under normal recommended operating conditions) as described in the warranty folder. A copy of the Sylvan Limited Warranty is attached to each new Sylvan boat, or may be obtained from any Sylvan dealer or the Sylvan factory.

Choice.

That's what you get from Sylvan Marine. We have so many different models and styles to choose from, you'll have fun just deciding where to start.

Looking for a fishing boat? We've got a full line of rugged aluminum boats loaded with great fishing features, from our exciting new Pro Selects to our economical jon boats.

If a speedy fiberglass model is what your heart desires, we offer everything from our sporty V170 to our newly redesigned, high-powered V188, plus our thrilling Space Ships and Space Decks.

Or, if you want to take your family for a relaxing cruise on a pontoon boat, your choices range from our cozy 817 Windsong to the magnificent luxury of our Special Editions. We even offer several hardtop models.

Sylvan boats are loaded with the features you really need, not what someone thinks you should have. Like tackle trays with watertight compartments built into the sides and top of the console. Live wells with our unique Intensive Fish Care Units (ICUs) and timers. Deep V hulls for one of the smoothest, driest rides you'll experience. Pontoons with sinks, coolers and Porti-Potties.

And the list just keeps on going.

No matter what model you choose, you can be certain it's built Sylvan-tough. Our aluminum boats are riveted, not welded, providing better stress-flex, greater strength, durability and a lighter weight. Several layers of fiberglass and hand-laid woven roving help form the basis of our sturdy fiberglass hulls. Our pontoons are made with heavy-gauge aluminum, and the decks are made with XL50 plywood with a 50-year limited warranty.

While the construction may be rugged, on the inside you'll find plenty of comfort. The seats are upholstered in thick, high-quality vinyl for long-lasting comfort, and there's extra seat bases so you can pick your favorite spot. You'll also find plenty of room to enjoy any activity on the water, whether it's hauling in a prize catch or stretching out with your family on a pontoon.

There's plenty of other amenities to help you enjoy your Sylvan boat. Tables, sofa beds, optional seating packages, plenty of storage room, sun decks, sleeper seats and so much more!

You'll also appreciate the performance of your Sylvan boat. The deep V hull, rake-back bow and five keels on our aluminum models provide a smooth dry and stable ride in even the choppiest water. Our high-performance fiberglass hulls plane quickly and efficiently, and our pontoons glide serenely and comfortably across the lake.

Our boats are also a good choice for a more practical reason—they're safe. Our stringent level flotation tests meet or exceed federal requirements. Each boat is leak tested. Most important of all, we back them with some of the strongest warranties available today to assure you and your family peace of mind.

As an independent, family-owned company, our philosophy is simple: we build quality boats at affordable prices for you and your family. We've been very successful with that philosophy, as our boats have long been recognized by boating enthusiasts as some of the best around, both in superb quality and value.

With so many styles and models available from Sylvan to fill your boating needs, you're assured of making an excellent choice.

**MERCURY
OUTBOARDS**

Power and Performance Working Together

Sylvan Marine is a boating industry leader because we work hard at building boats of uncompromising value and quality you can enjoy. We're independent and family-owned, and we don't want our name on a boat we don't have a personal stake in.

So we take great pride in seeing Mercury and Mariner motors on our boats. Well established as leaders in their own field, Mercury and Mariner have long set, and continue to set, the standards of performance, engineering and quality in boat motors.

Their complete lines offer something for everyone, and include outstanding features like electronic CD ignition, single-point variable-ratio oil injection, loop charging, Electronic Fuel Injection and smooth, quiet state-of-the-art carburetors.

And only Mercury and Mariner have a three-year limited corrosion failure warranty, one of the best in the business.

For the best names in boating, look no further than Sylvan, Mercury and Mariner.

Optional equipment is shown in some photographs used in this brochure. Please confirm standards and options with your dealer.

All warranty information is available from your Sylvan dealer or directly from Sylvan Marine. Please write for more information.

If you don't find the boat to fit your needs in this brochure, ask your dealer about the other fine boats from Sylvan Marine.

Note: In our continuing efforts to build the best quality boats at affordable prices, it may become necessary during the course of the year, to change specifications or materials used in construction. We reserve the right to make changes without prior notification.
