There's an experience on the water like no other. One where boat and angler come together seamlessly in the pursuit of catching fish. And one where friends and family can join in effortlessly for hours of enjoyment. Yes, there's excitement built into every Sylvan fishing boat. Like the thrill of getting up on plane faster than ever. But also, there's peace of mind — from having one of the best built, best backed boats in the industry. So this year, experience it all. With one of the most trusted names in boating for nearly 50 years. Sylvan Marine.
SYLVAN. THE OBVIOUS CHOICE.

Here are ten reasons why:

QUALITY
At Sylvan, we offer many different models to meet many different needs. But at the heart of each and every one is a well-constructed, thoughtfully designed boat that’s built to last. After all, we wouldn’t put our name on anything less.

SERVICE
We believe that customer service begins right here at the factory — with our commitment to our dealer network and our promise to stand behind every boat we build.

HISTORY
When you get a Sylvan, you’re getting the benefit of decades of experience. That’s many years of research and development. And many years of relationships with the very best vendors and suppliers in the industry.

FINANCIAL STABILITY
You don’t stay in business as long as we have unless you’ve earned the financial confidence of a vast number of dealers, suppliers, employees and customers. Just one more reason to feel good about becoming part of the Sylvan family.

NATIONWIDE SALES AND SUPPORT
Our nationwide dealer network offers expert sales and factory-authorized service to water-loving families across the country. Visit our web site at www.sylvanmarine.com to locate the dealer nearest you.

CONSTRUCTION
At Sylvan, we’re proud to offer the best construction in the industry. You’ll find the same high level of quality materials and processes across our entire line of boats. From the hat-shaped ribs and raked-back bow design of our aluminum V-hulls to our labor-intensive 7-layer fiberglass construction to the heavy gauge, welded chambers of our pontoon tubes. You can be sure your Sylvan is solid from stem to stern.

BROAD PRODUCT LINE
At Sylvan, our family loves boating as much as yours does. And maybe that’s why we continue to offer so many different models and product lines. Fishing, cruising, skiing — simply pick your family’s favorite activities and chances are, we’ve got a package that’s perfect for you.

SAFETY
Every Sylvan boat is built to exacting standards set by the U.S. Coast Guard. From flotation and fuel systems to wiring looms, boat beams, depth and freeboard — Sylvan boats are among the safest on the water.

RESALE VALUE
With thousands of Sylvan boats on the water today, Sylvan is one of the most popular and recognized names in the industry. For you, this popularity translates into higher resale values when it comes time to upgrade.

INNOVATIVE ENGINEERING
When it comes to engineering, the little things add up to a big difference. Ideas like one-piece bottoms, more lateral ribs, double riveted seams, 5 bottom keels, and a unique sealing tape, just to name a few. Simply put, our research and development team keeps Sylvan well ahead of the curve.
PRO FISH & ADVENTURER 04

Want to fish like the pros? Then take a closer look at the Pro Fish and Adventurer series. These boats are loaded with features that set you apart from the crowd. The Pro Fish now features our new “eye brow” console for a sharp new look. And the boat converts easily for family outings, with a fold-down front platform and bow cushions.

### Select Features

- A. Driver's Console
- B. Sport Bow Cushions
- C. Rod Storage 1600 Expedition
- D. Sport Convert-a-Bench (dir) 1600 Sport (opt.)
- E. Sport Convert-a-Bench (up) 1600 Sport (opt.)
- F. Stern Livewell & Baitwell Viper
- G. Center Rod Storage Viper
Welcome to the exciting debut of the all-new Avenger.

Anglers of all types will enjoy the large front casting platform, as well as the bow and stern livewells and port-side rod storage. Another highlight is the new rounded console with a unique space-age design and full instrumentation.
Head out in an Expedition, and you'll marvel at the instant on-plane performance, smooth, dry ride and remarkable handling — thanks to its exclusive Gull Wing hull design, raked back bow and five keels. For those who prefer to fish from fiberglass, the Viper is an impressive choice and comes loaded with standard features.

PREMIUM GRADE MARINE ALUMINUM
Our boats exceed industry standards by featuring tempered, tension-leveled 5052 H34 marine grade aluminum.

RAKE BACK BOW
This innovative bow design features an integrated spray rail and gives you not only a smoother, drier ride — but also more room in the bow up above. The .125 one-piece bottom and double riveted seams combine to give the bow its unmatched strength.

A CARPET
Your whole family can rely on the durability of our premium grade, 100% UV stabilized marine carpet, with a 5-year warranty.

B XL PLYWOOD FLOORS
Our floors carry a lifetime warranty, thanks to our specially treated XL plywood that’s guaranteed not to warp or rot.

C URETHANE FOAM
One step aboard, and you’ll notice the strength and solid support of the floor. That’s because we fill every cavity with gasoline-resistant urethane foam to eliminate water pockets and give your boat maximum buoyancy and a quieter ride.

D STRENGTH
Peel back the layers, and you’ll see our recipe for a stronger boat. It includes a .125 one-piece bottom, with .125 gauge hand-fitted ribs on 10” centers — the type of construction you’ll find on many of our boats. Combine this lateral strength with five keels running longitudinally, and you get superior impact resistance and improved lift, handling, bottom support and protection.

THE FLOW RITE LIVEWELL SYSTEM
This clever design features a fill pump that draws in water, circulating it at the bottom of the tank. An air hole in the top of the fill pipe allows air to mix with the water, keeping fish healthy. The fill pump may be operated manually or on a timer with excess water draining out of an overflow. Plus, a separate recirculating pump works in a continuous loop to keep aerated water moving in the livewell. This is especially helpful when you’re refueling or drifting through stagnant water. For easy cleaning, the livewell has a bottom drain, and the hose runs through the transom, not the floor.

E 5-KEEL CONSTRUCTION
Once you’ve experienced the unmatched stability and handling of five external keels, you’ll know why they’re so important. The keels also protect your boat from objects beneath the surface, as well as from the wear-and-tear of trailering.

F TWICE BAKED URETHANE PAINT
To give your boat a tough, long-lasting finish, we utilize an in-house paint process that begins with a special aluminum grade primer to ensure proper bonding. We then bake two coats of urethane-based paint to the hull.

G THE GULL WING HULL
You'll have superior acceleration and control thanks to this exclusive specialized design. It keeps the bow down as you accelerate, getting you out of the hole faster.
CONSTRUCTION & FEATURES

Take a closer look, and you’ll see the innovative engineering and superior construction that goes into your Sylvan boat. And it’s all backed by some of the best warranties in the industry.

In addition, Sylvan has chosen only the very best partners to bring you such features as engines, covers and tops. Because the way we see it, only the strongest commitment to quality can help you get more from your time on the water.
SEATS

Comfort reigns throughout your boat, thanks to our advanced seats with pinch-proof hinges, contoured bottoms and backs, and resilient foam padding. Our rotomolded, wood-free construction ensures that the seats won’t warp or rot.

CONSOLE

Select models feature our custom-molded consoles with deluxe gauges. Many boats also feature tilt steering, along with either hydraulic or anti-feedback steering. All of our consoles are ergonomically organized, with easy-to-read dials and easy-to-reach switches and circuit breakers. On dual console models, you'll also find beautiful walnut grain and such amenities as a lockable glove box and molded cup holders.

APPAREL

To complete the package, we offer an exclusive line of Sylvan shirts, jackets and hats. For your convenience, you may order online by visiting our website at www.sylvanmarine.com.

WARRANTY

Sylvan warrants each new aluminum hull for a period of ten (10) years; lifetime warranty on all riveted seams, and each new fiberglass hull for a period of five (5) years, from the date of purchase by the original purchaser (based on years of use under normal recommended operating conditions) as described in the warranty folder. A copy of the Sylvan Limited Warranty is attached to each new Sylvan boat, or may be obtained from any dealer or the Sylvan factory.

AIRS

ADVANCED INTEGRATED RIB SYSTEM

The choice is clear! Our exclusive Advanced Integrated Rib System utilizes hand-fitted, hat-shaped ribs for superior longitudinal strength and rigidity that simply outperforms our competitors’ double-plated aluminum.
If you prefer the easy wash-down of a vinyl interior, then the Navigator is the boat for you. The 1700 and 1600 models feature plenty of storage space, versatile seating and bow and stern livewells. While the 1500 and 1400 models are designed to be great boats at a great value. Either way, our twice-baked urethane paint process will help keep your boat looking its best for years to come.

You’re looking at a utility boat that’s designed to last for years. The Sport Troller has all the basics for great fishing, including livewell, rod storage, bow platform storage, and a lockable glove box. You can also count on the durability of its treated floor with lifetime warranty, as well as the carpet with five-year warranty.
