A TRUSTED BOAT BUILDER SINCE 1948.

Sylvan Marine traces its history back to the late 1940s, when it was founded near Sylvan Lake in Wolcottville, Indiana. Since 1970, the Sylvan brand has been part of the Smoker Craft Inc. Family of Products and continues to be known for high-quality, innovative pontoons. You can count on Sylvan for the best pontoon values for every budget — backed by the very best service and warranties. After all, it’s our family’s tradition.
“SIMPLY AMAZING PERFORMANCE!”

“FOR INCREDIBLE PERFORMANCE, HOLE SHOTS AND QUICKER TIME TO PLANE, RPT GIVES AMAZING PERFORMANCE TO SYLVAN PONTOONS.”

EXECUTIVE EDITOR, PONTOON & DECK BOAT MAGAZINE
BRADY KAY
THRILL RIDE. EXCLUSIVELY FROM SYLVAN.

Game-changing Sylvan performance rides on RPT Revolutionary Planing Technology tubes. The V shape allows the pontoon to lift and plane across the water with sportboat-style speed and handling. In fact, you get increased top speed per horsepower and dramatically improved fuel efficiency—which is perfect for great days of tow sports and cruising.

And now, you can upgrade to our all-new PR25 Performance package for an even better experience. Developed for use with a removable skylon, this package features an extended center transom and 60-gallon fuel tank to provide increased fuel capacity for a larger or XL shaft engine.

Whichever package you choose, keep your investment looking showroom-clean with the new painted tube option. A combination of zinc chromate primer and urethane paint chemically etches into the aluminum to form a corrosion-resistant surface.

Thanks to RPT and PR25, a Sylvan pontoon isn’t just the best of both worlds of spaciousness and performance. It’s a whole new level of wow.

SYLVAN

CHOICE

Virtually every aspect of a Sylvan pontoon can be chosen to create a boat just for you. From our wide range of innovative floorplans, to great options and packages, to flooring and colors – it’s all up to you.

A. Constructed for Endurance
3/4" 7-ply pressure treated plywood through bolted and screwed to the hat channels to create the strongest seams in the industry.

B. Hat-Channel Construction
It all begins with .250 (heavy) and .125 (standard) gauge aluminum hat channels that are 6" wide and secured with 8 bolts spanning across our 6" wide deck frames. This creates the widest base in the industry and gives our pontoon greater stability without adding unnecessary weight. Combine that with a 190 gauge aluminum transom that’s through bolted with up to 20 bolts and footed deck rings that prevent tube fatigue, and you see why Sylvan backs its industry-leading construction with a Limited Lifetime Warranty on every product.

C. Fence & Railing
Features foam backing to prevent rattling and fully welded and anodized railing to add strength. Anodized rails are never painted. It’s all backed by a 6-year warranty.

D. Tuna Bolted Transom
Made up to 190 gauge aluminum and supported with up to 20 stainless bolts to handle today’s higher horsepower engines.

E. 4-PT Deck to Hull Fusion
Sylvan deck brackets have 4 points of fusion for an extended area of contact with the tube. In addition to providing increased strength and support, this reduces frame twist and racking in rough water and guards against tube fatigue.
Reach new heights with more breathtaking performance, more luxurious comfort, and more game-changing features and packages.
WHERE TOP-OF-THE-LINE LUXURY MEETS BREATHTAKING VELOCITY.

Welcome aboard, where ultra-soft carpet and plush pillowtop upholstery surround you in comfort. Take your place at the helm behind the sleek, sculpted raised console that puts up to 300 horsepower at your fingertips. Combine that with Sylvan's exclusive RPT tubes, and you know you're in for a high-velocity thrill ride. So crank up the stereo and drop the throttle. You deserve this.
